Rate basis: Monthly rates assume one dedicated resource at about 160 billable hours/month. Hourly equivalent = monthly ÷ 160; daily equivalent = monthly ÷ 20 working days. Actual quote depends on candidate skill, availability, duration and scope.

Introductory pricing: Rates are approximately 20% below the previous SkyNetix draft rate card to support early market entry. Use as negotiation bands, not as an automatic discount on every deal.

Group affiliation: SkyNetix Systems LLP is a subsidiary of Smart Software Service. skynetixsystems.com • Parent: smartsoftwareservice.com

Commercial terms

- **GST:** Extra as applicable.
- **Duration discounts:** Offer additional discounts only for longer commitments or multiple resources after checking your margin.
- **Excluded unless agreed:** Travel, onsite work, night/weekend shifts, cloud usage, licences, background checks and special compliance costs.
- **Project delivery:** Fixed-price work should be estimated separately with clear scope, acceptance criteria, dependencies and change control.
- **Payment:** Suggested starting terms: monthly invoicing in arrears, approved timesheets and 15–30 day payment terms.
- **Pricing note:** These are indicative introductory prices, not binding offers. Public 2026 market references show broad differences by experience and engagement model; confirm actual candidate cost and customer budget before final quotation.
